

CPD50L1

4-wheel Li-ion Counterbalance forklift 5000kg

- High ground clearance and big tires perfect for handling and traction in every environment
- Overhead guard height (h6) = 2250mm and dedicated mast for loading in containers
- Shorter l2 and smaller turning radius providing maneuverability in confined spaces
- Improved travel speed maximizing transport efficiency
- Great ergonomic design with spacious legroom, adjustable steering wheel and comfortable bucket seat
- 80V Li-Ion battery grant efficiency, long autonomy and opportunity charging
- Joystick option available for fatigue-free operation
- Multi battery chargers fulfilling different needs

Manufacturer			EP
Model designation			CPD50L1
Drive			Electric
Load capacity	Q	kg	5000
Load center distance	c	mm	500
Service weight			7000
Height, mast lowered	h1	mm	2230
Lift height	h3	mm	3000
Height, mast extended	h4	mm	4175
Length to face of forks	l2	mm	2900
Overall width	b1/b2	mm	1550
Fork dimensions	s/e/l	mm	55x150x1070
Turning radius	Wa	mm	2675
Travel speed, laden/unladen			16/18 km/h
Lifting speed, laden/unladen			0.3/0.46 m/s
Lowering speed, laden/unladen			0.45/0.51 m/s
Max. gradeability, laden/unladen			15/20 %
Drive motor rating S2 60 min			18 kW
Battery voltage/nominal capacity			80/560 V/Ah

FEATURE

New appearance combining both practical and aesthetics design

The new design of the CPD50L1 reflects both practicality and beauty. The internal lay-out has been optimized, resulting in shorter l2 of 2900mm and a tighter turning radius of 2675mm. The compact size makes it easy to maneuver in confined spaces.

The bolted overhead guard offers maximum flexibility for retrofit or replacement and the height of 2250mm combined with triplex 4,5 meters elevation allows for goods transportation in standard containers.

Different lithium battery capacity options to meet different needs

The CPD50L1 offers two lithium battery options, 80V/560Ah and 80V/690Ah, to meet regular and intensive applications. It is designed around the advantages of lithium technology - opportunity charging, zero maintenance, zero carbon emissions and zero gas emissions during charging, which contributes to convenient and sustainable operation. The practical IP65 external plug provide charging convenience without the need to open the cover.

■ Fast travel speed for maximum efficiency

Compared to the classic CPD50F8, the travel speed of the CPD50L1 is improved to 16/18km/h, speeding up warehouse turnover and increase transport efficiency.

■ Joystick option for fatigue-free operation

The CPD50L1 can be fitted with hydraulic joystick controls instead of mechanical levers. Positioned at the end of the armrest, fingertip operation is possible, improving the operator ergonomics with the following controls: all fork hydraulic control including the 4th way, driving direction (F-N-B), horn, emergency stop button.

■ Market-proven components and optimized lay-out

The CPD50L1 inherits mature components, such as drive unit, motors, controllers and mast, ensuring great reliability. The box girder structure is more rigid granting higher stability and the new hydraulic pump makes the lifting operation more precise and quiet.

■ Ergonomic seat for a comfortable experience

The seat height (h7) is 1208mm from the ground, lower in its category. This makes it easy for the driver to get in and out.
